NOTE FOR: All NIOs

SUBJECT : The Attached

1. The Director asked me to send the attached memo to each of you and asked that you do something similar within your area of responsibility.

2. You will recall that Harry and I have mentioned previously to you the Director's interest in forecasting trends and analyzing the less likely outcomes. I have not monitored your response to this, but the Director commented to me today that he has seen none. Please give this your attention in the next week or two.
